

# Cass City Public Schools Evaluation Training

Cass City Public Schools will be using the Charlotte Danielson Framework for Teaching for teacher evaluations and School Advance administrative evaluation system for principals. The superintendent evaluation is one that is endorsed by MASB.

The district will be using the tools described by the research and authors. The research, reliability, validity and efficacy behind these tools and the performance level descriptors are posted separately on the district website.

The training plan was comprehensive and encompassed all involved. The district had all principals and the superintendent trained in the Charlotte Danielson Framework in 2013-14, 2015-16 and again in 2016 – 2017. Teachers were trained in 2015 – 2016 and 2016 – 2017. The training for the Charlotte Danielson Framework for Teaching was led by Danielson trainers in both 2015-16 and 2016 – 2017.

For the principal evaluation tool School Advance, district administrators were trained in the summer of 2016 by an approved trainer from School Advance evaluation model, utilizing the training schedule and plan recommended outlined in the postings and assurances document linked above.

Lastly, the Cass City Board of Education will be trained on the MASB Superintendent Evaluation tool on February 13, 2107 by an approved MASB evaluation trainer.
